nhidev.github.io

With a strong technical skill-set, attention to detail, and 4+ years of experience, I want to work as a front-end web developer where I could create digital magic and elevate user experience to the next level.

Experience

Front-end Developer

REDWEB
9/2017 - 6/2018
redweb.vn

- Creating, modifying websites for Joomla open source CMS and our ecommerce platform.
- Upgrade client sites (ecommerce platform, Joomla CMS).
- Fix front end related bugs that were identified in QA, beta and production environments.
- Attend wire frame review, design and html code walkthrough meetings.
- Worked in Agile environment, attending daily scrum meetings.

Front-end Developer

1PAC
08/2016 - 06/2017
1pac.vn

- Develop HTML/CSS templates from Photoshop visual design and wireframes.
- Refactoring code and delivering products with high quality, write code that runs cross browsers.
- Research trending technologies and apply it to real production.

Web Developer

CANON LE BAO MINH
05/2014 - 07/2016
lebaominh.vn

- Creating, modifying websites for WordPress open source CMS solutions with PHP programming language.
- Used jquery to build accordion style content, drag and drop functionality, calendar, popup and modal windows
- Cross-browser compatible by writing W3C validated Semantic XHTML.
- Responsible for solving page layout issues and creating an effective CSS fluid layout.
- Monitored the web analysis reports to view the performance of the company websites.

Data Agent

SKUNKWORKS
06/2012 - 12/2013

- Collect, verify data from multiple sources like Yelp, Foursquare, Opentable, Google+ ... to build a social planning application "Klamr".

Data Agent

GHP FAR EAST (SWISS POST)
09/2010 - 08/2011

- Insert customer and account data by inputting text based and numerical information from source documents.
- Compile, verify accuracy and sort information according to priorities to prepare source data for computer entry.
- Review data for deficiencies or errors, correct any incompatibilities if possible and check output.
